

**Client:** IISER (Indian Institute of Science Education and Research), Bhopal

**Solution delivered:** RFID Based Vehicle Identification Solution

### **The Challenges**

- Time consuming entry and exit processes
- Frequent cases of unauthorized vehicle entry
- Manual record keeping was a cumbersome process

### **The Solution**

- About 1500 employee vehicles were tagged using UHF labels
- RFID readers were installed at entry and exit gates of the Campus
- Customized software was developed to provide various kinds of reports.

### **A Smarter Working Campus**

- Reduced time for entry and exit of vehicles
- Boom Barrier opens automatically when reader identifies the authorized vehicle

**Eco Tracksys Limited**

B-14, Second Floor, Patparganj FIE, Delhi 110092

- Division / department wise recording of employee's entry and exit time.
- Signals unauthorized vehicle entry and alerts security guards leading to stronger unit protection
- Automatically records data on the company server.
